

# Acumen Simplex™ Cabinets

The Acumen Simplex™ Cabinet is designed to store hazardous waste in a safe, simple and cost effective manner. The insurance preferred cabinets are fitted with a fire extinguisher, drip tray and are available in small, medium, large and extra large. We can also tailor the internal specification to suit your particular requirements.

## AcuBin and HazBox

Acumen's AcuBin and HazBox provide a cost effective method of ensuring producers of hazardous wastes remain compliant with all waste disposal legislation. The AcuBin has been designed for the safe storage and disposal of absorbents (such as oil filters, rags and wipes, PPE, spill-dry granules, mats and booms) contaminated with hazardous substances. The absorbents are then recycled or re-used, providing customers with "R" codes. The Acubin holds 40L more than conventional drums, so makes the cost of disposal better value. The HazBox holds items such as bulbs, UV lamps, toner cartridges, paint and cleaning chemicals. Containers are delivered to site and exchanged upon request.

## Providing a Nationwide Service

Our multiple service locations throughout the UK means we can provide UK-wide coverage for the collection of waste materials.

## 24 Hour Spill Response

As accredited spill responders we offer highly trained and experienced teams to respond to all types of land and water spills. Our emergency hotline is operated 24/7 for emergency clean-ups, oil spills, chemical and toxic substance spills. Call 0843 658 0513.

## Our Accreditations and Memberships

With an impeccable safety record and over 20 years of business excellence, we continue to be committed to Health, Safety, Environmental and Quality. We are proud to hold the following accreditations and memberships:

- ISO 18001 • ISO 9001 • ISO 14001 • UK Spill Association - Accredited Responder • Oil Recycling Association
- Asbestos Removal Contractors Association (ARCA) • Archillies UVDB • ConCom • IS Network • Decom North Sea
- BROWZ • WAMITAB • Institute of Waste Management • Road Haulage Association

# ACUMEN ENERGY LTD

PROVIDING ENVIRONMENTAL SOLUTIONS THROUGH INNOVATIVE OIL RECYCLING AND WASTE MANAGEMENT SERVICES

**Acumen Energy** 20 YEARS SERVICE INTEGRITY SAFETY

# Introduction

Acumen Energy Ltd (AEL) provides environmental solutions to businesses throughout the UK. Specialising in the collection and recycling of waste oil and hazardous automotive waste streams, AEL collect contaminated fuels, oil filters, oily rags, spill absorbent granules, antifreeze, solvents, batteries and brake fluid. We also supply parts washers and offer general Waste Management and Industrial Site Services. Our Industrial Site Services include decontamination and decommissioning projects as well as tank cleaning and on or off site waste treatment services.

## National Coverage

From our main processing facility in Wolverhampton, West Midlands and our network of depots in Stockton, Leeds and Essex, we are able to provide nationwide coverage with a next day service in the north, midlands and Home Counties.

## Professional and Efficient Service

We offer a professional and efficient service with the focus on materials recycling and recovery, ensuring our client's environmental impact is minimised and that difficult and hazardous waste is managed and disposed of in the most sustainable way.

## Member of the Avista Oil Group

As a member of the Avista Oil Group, Acumen Energy process more than 700,000 tonnes of used oil and emulsions, converting them back to high quality oil products and lubricants. Our approach is to offer clear and intelligent thinking that gives our customers maximum benefits. At Acumen Energy we help our customers understand how they can achieve cost benefits and environmental improvements through:

- Waste Oil Recycling and Recovery
- Waste Elimination
- Waste Minimisation
- Conventional Waste Management
- Waste Storage Concepts

## Our Services

## Bulk and Packaged Waste Disposal

Handling hazardous and difficult waste is part of our day-to-day business. We manage the recycling, treatment or disposal of hazardous and difficult waste materials for clients across a wide variety of business sectors. These wastes can be collected by our fleet of vacuum tankers in bulk or if they are packaged we can collect Drums or IBC's. Should they need repackaging for safe transport and treatment we have the expertise to provide this service on your behalf.

## Industrial Site Services

Our Industrial Site Services Division provides experienced and skilled teams to deal with all manner of decontamination and decommissioning projects as well as tank cleaning and on or off site waste treatment services. Our highly trained personnel deliver solutions including remote cleaning of vessels preventing the need to work in confined spaces.

## General Waste Services

Acumen Waste Services are the preferred waste management organisation for businesses throughout the UK. By offering a nationwide service through one point of contact for both hazardous and non hazardous wastes, we ensure we deliver cost savings, reduce our client's administrative burdens and reduce management time spent on waste issues.

As your Total Waste Management provider, we ensure full compliance with health, safety, environmental and other key legislation and we always work in compliance with the highest environmental principles, fully embracing the concept and practice of sustainability in terms of economic, environmental and social responsibilities.

## Acumen Waste Recovery Park

Our fully permitted site in Yorkshire has been designed to provide an alternative to landfill disposal by offering waste treatment and recovery facilities for a variety of waste streams including those with physical, chemical and biological contaminants. Typical waste streams accepted include contaminated soils; power station residues; construction and demolition wastes; contaminated sludges; mixed organic and treatment facility wastes.

## Mobile and fixed waste treatment facilities

Acumen owns and operates a range of waste treatment and washing plants which incorporate a unique range of solutions designed to remove contaminants from soils and other solids or sludge's impacted with a wide variety of materials.

## Asbestos Disposal

Acumen Waste Services provide a safe and efficient service to the asbestos abatement industry for the transportation and disposal of all types of asbestos bearing waste. As a member of the Asbestos Removal Contractors Association (ARCA), we are proud to be the preferred waste management partner to the premier operators within this sector.
